

ChildVictimWeb

www.musc.edu/cvweb

ChildVictimWeb is a multimedia, online training resource for professionals in the child advocacy and trauma response fields.

This free, online resource provides foundational training on trauma response, and connects professionals in the child abuse intervention field with valuable information and industry best practices.

ChildVictimWeb provides access to:

- Proven effective assessment strategies
- Evidence-based approaches to treatment
- Trauma-informed case management skills and care strategies
- Interactive tools including interviews with leading experts and online courses

Designed for professionals from all disciplines who work with children and adolescents who have experienced trauma as a result of abuse or witnessing violence. ChildVictimWeb is frequently updated to reflect up-to-date information and best practices.
